

SCHEDULE 9

DRESS CODE

General: Qualifiers for the National Championships must wear the Registered County shirt and Registered County apparel or Registered County shirt and white apparel below the waist.

Other events are Competitions when players have the option of wearing the Registered County shirt or their Club shirt, providing that all members of the side wear the same.

There is no condition in Bowls England events that all members of a team or side must wear the same apparel below the waist. However, it is a requirement that the colour worn is matching.

The dress code for all other activities that players participate in, for example, club friendly matches and leagues, is a matter for the relevant organising body to determine
